## IPA Beer

Directions: Each group of questions in this section is based on a set of conditions. In answering some of the questions, it may be useful to draw a rough diagram. Choose the response that most accurately and completely answers each question and blacken the corresponding space on your answer sheet.

### Questions 1–7

A bartender is organizing a taste test of the newest IPA beer selections. Exactly seven different varieties of beer will be tasted—Long Lake, Moon Rune, Newtonbury, Olenguard, Pumpkin Pale, Quest, and Roundabout—one at a time and consecutively. No other beers are to be tasted. The bartender must adhere to the following rules:

Olenguard must be the third beer tasted.

There is exactly one beer tasted between Newtonbury and Quest.

Either Long Lake or Pumpkin Pale is the fifth beer tasted.

Either Pumpkin Pale is tasted before Roundabout or Moon Rune is tasted before Newtonbury, but not both.

- Which one of the following could represent the order in which the beers are tasted, from first to last?
  - Long Lake, Newtonbury, Olenguard, Pumpkin Pale, Quest, Roundabout, Moon Rune
